

Description:

The Elite catalytic cabinet heater is a free standing, high output heater for use with butane gas at 28mB pressure. The heater is fitted with Piezo ignition for safe and efficient ignition and a flame supervision device, oxygen sensor and tip over switch for safety. The Elite catalytic heater is supplied with regulator and 50cm hose manufactured to BS EN 16436-1.

PART NUMBER: CABCATI

IGT LPG Compact regulator

Viewable Pilot Light window

4 Castors for easy manoeuvrability

Specification:

- Maximum 3.2KW, medium 2.5KW, low 2.0KW heat output, 11,000 BTU's.
- Safety tip over shut off device.
- Heating area: 20 – 60sqm
- Regulator: 21mm G53 Butane with 8mm outlet
- Gas type: Butane, Propane and LPG – Note Butane regulator fitted
- 2mm gauge legs with triangular strengthening brace for durability
- Gas consumption: Max. 232g/h, Med. 190g/h, Min. 145g/h
- Energy Efficiency Rating : A
- Nett Weight: 9.1KG Gross Weight: 10.5KG
- Product Dimensions: 420 x 360 x 720 mm
