

Description:

The Dosko 6HP Stump grinder is a fully portable, small 27cm stump grinder. It runs off of a reliable, long lasting Honda engine, and has a 3-in1 tooth system that has been re-designed meaning each tooth lasts longer and can be rotated 3 times before changing so you can always have a fresh edge to use. The teeth are fast to change as they don't require allen wrenches, one bolt per tooth and it's off. One of the main features of the 6HP is its full portability, as the handlebar can fold over the main unit. This means it can comfortably fit in the boot of most cars and vans, and weighing only 61kgs, it can easily be transported through a house/pathway to access back gardens.

Product Code: DOSKO6HP
